

Story

A series of accessible investigations, linked to a picture book, including making trucks, using scientific snow and sand, and investigating rafts. Parents and carers can be invited to take part.

* Age: N/R/Y1 and Y5/Y6 * Time: 60 minutes * Space: hall

"Excellent workshop. The activities engaged all the children and were quick and easy to do. The activities stimulated lots of good discussions among the children. They enjoyed working with the Year 5 pupils and are keen to take all their things home."

Booking

Our workshop programme is extremely popular so the more lead-time (and choice of dates) you can offer us, the better.

Three workshop sessions will usually fit into a school day. Workshops are designed for a class of about 30 children with their class teacher. Our workshops are designed specifically to develop pupil skills. Notes are provided as support for the teacher to follow up the workshop. We hope that teachers will use the workshop ideas in their own teaching.

This workshop needs extra support - either adults or pupil helpers. Pupil helpers will have an opportunity to develop science communication skills so the pupils selected to help need to be alert, fairly competent and likely to benefit from taking part in the sessions.

Costs

Workshop days cost £435 (+VAT) but some workshops which take place in areas where Workshop Leaders live might be available at reduced rates. Please note that there might be a small contribution towards accommodation/travel if the Workshop Leader is not local to your area. You might consider 'partnering up' with other schools in your local area to share the cost. Please enquire for more details.
